Letter of Statement CTPAT Program

To All Business Partners,

We at Transmaritime, Inc. support the U.S. “Customs Trade Partners Against Terrorism” CTPAT by meeting or exceeding best practices in yard security, seal integrity, interchange inspections, quarantine areas for suspicious circumstances, contingency plans, evaluation, and improvements.

Our participation in international logistics is key to avoiding contamination of goods. We created a security policy and audit risk program that guarantees security in our supply chain.

Our Security Policy is:

“We are committed to offer a secure Supply Chain in all our services, taking steps to detect, recognize and prevent security risks on the daily operation activities. We are convinced to implement and promote security policies and procedures against smuggling, trafficking of arms, people, prohibited goods, acts of terrorism and the illicit use of information”.

Sincerely,

Carlos D. Navarrete
Chief Operating Officer
Transmaritime Inc.
